The screenshot shows the INFINITEWP Admin Panel v2.0.3 interface. The main content area displays the IWP Update Centre, which lists updates for four websites: christianfuchs.info, bomdia-lissabon.de, emailmarketing-stammtisch.de, and webstreifen.de. Each website entry shows a 'PLUGINS' count and a list of plugins with their current and available versions. For example, christianfuchs.info has 1 plugin, 'Yet Another Related Posts Plugin v4.0.3'. bomdia-lissabon.de has 2 plugins: 'Antispam Bee v2.5.4' and 'Jetpack by WordPress.com v2.1.1'. emailmarketing-stammtisch.de has 1 plugin, 'Antispam Bee v2.5.4'. webstreifen.de has 1 plugin, 'Antispam Bee v2.5.4'. Each plugin entry includes 'Update' and 'Hide' buttons. A 'PROCESS QUEUE' window is open in the bottom right corner, showing a log of recent update actions:
